BAD, BAD, BAD BLOOD.

Some blood is bad because it is poor and weak. Some is bad because it contains impurities. Some men have such bad blood that the wonder is it does not poison the mosquitoes who come to bite them. The rich red color of good blood is owing to the iron which is present. Blood which has not enough iron in it is always unsatisfactory. The persons in whose veins it circulates cannot be said to enjoy good health.

The efforts of expert chemists to produce a preparation of iron which can be assimilated with the blood have resulted in that perfect preparation which is an important part of Brown's Iron Bitters. It is the only one which freely enters into the blood. It is the only one which accomplishes the desired good.

Weak, poor, thin blood may be made rich and strong, and impure blood may be purified by the use of that Great Iron Medicine, *Brown's Iron Bitters*.

FOR SALE. **BOURBON FARM.**

For sale, privately, one of the best farms in Bourbon county, containing two hundred and fifty acres. It is improved by a second to none. But little of it has been plowed of late years. Barns enough for ten acres of tobacco; stone and post-rail fence; close to first class colleges, churches, &c. It is one of the most desirable homes in the country. It must be seen to be appreciated. Come and see it; I want to sell it. It is in three-quarters of a mile of North Middle-town postoffice. Write for particulars.
